

TARIFF BILL AS REPORTED TO THE HOUSE

Joint Committee Has Finished It's Work, And Result Is Made Known.

PAYNE MAKES STATEMENT TODAY

Marked Reduction In Metal Schedules Is A Feature Of The Measure--Rough Lumber Down--Little Change In Wool--Sugar And Tobacco The Same.

Washington, D. C., July 31.—The conference report on the tariff bill will be debated tomorrow in the house. The democratic members of the senate. A decision to this effect was reached today at a short conference of the minority. The southern democrats are especially displeased over the failure of the conference to retain cotton baling in the free list. The house convened at ten today and the reading of a voluminous conference report on the tariff bill consisting of seventy-six closely printed pages was begun. Majority Leader Payne, head of the house conference on the tariff bill which bears his name, rose in the house to present the report of the conference committee of the two houses on the bill, the measure had been in conference for just three weeks. Contending that the bill marks a general downward tendency from present rates of duty, Mr. Payne presented an exhaustive analysis of its provisions. He undertook to show that there had been a marked decrease in the rates on the necessities of life, while admitting that there had been an increase on some of the luxuries. Probably the most marked reductions throughout any schedule in the bill as a result of the action of the two houses and of the conference committee are found in the metal schedule. Beginning with a decrease in the rate of iron ore from 40 to 15 cents per ton, there is a general reduction throughout that portion of the bill. Pig iron going down from \$4 to \$2.50 per ton, and scrap iron from \$4 to \$1. The reduction on many of the items in this schedule amounts to about 50 per cent, and this reduction includes structural steel ready for use and also a slight increase on razors, uppers and pillows, and on such new metals as tungsten. Rough lumber goes down from \$2 to \$1.25 per thousand feet, with corresponding reduction in the differential on dressed lumber. The wool schedule underwent no change of consequence, but the entire cotton schedule was reconstructed and the phraseology greatly changed in the hope of preventing reductions through decisions by the courts such as have characterized the administration of the Dingley law during latter years. In many instances the rates intended to be imposed by the Dingley law were cut by the decisions, the reductions in some instances being from 60 per cent, to eight per cent, ad valorem. It is estimated that the rates fixed by the bill are about three per cent, higher upon an average than those collected on cotton last year. Rates on Hosiery Increased. The rates on hosiery are generally increased. In the much contested matter of the rate on gloves the high protectionists fail to score. They sought, through an increase made by the house, to raise the duty materially above the Dingley figure, but were antagonized by the senate, and the senate won, the only change made in the entire schedule being one slight reduction. The silk schedule was reconstructed with a view of imposing specific rather than ad valorem duties, with the result that the average duty will be somewhat higher under the new law than under the present statute. Oil cloths and linoleum are heavily cut, but otherwise the changes in the flax, hemp and jute provision were not material. A slightly increased duty is provided for hemp, both crude and baled, and also on certain high-grade laces. On linen yarns and matting there is a reduction. Sugar and tobacco duties remain substantially as they are under the Dingley law. The free importation of considerable quantities of both of these articles from the Philippine Islands is permitted, and a material change was made in the internal revenue law by an amendment taking the tax off the sale of tobacco in the hand. There is a uniform increase on spirits, wines and liquors of 15 per cent. Rate on Hops. In the agricultural schedule hops are increased from 12 to 15 cents a pound and there is also an increase on lemons, figs, almonds and pineapples. The publishers win their fight for lower wood pulp and print paper, the rate on the ordinary newspaper print paper being fixed at \$3.75 per ton instead of \$4 as under the Dingley law, and on the higher grades of print paper at \$3.75 instead of \$4. Mechanically ground wood pulp is to come in free of duty instead of paying one-twelfth of a cent a pound under the Dingley law, but provision is made for a countervailing duty in case it becomes necessary to protect this country against Canada's prohibitions upon the exportation of wood pulp to the United States. Hides of cattle come in free and there is a corresponding reduction on (Continued on page 8.)

The new Panama bond issue will help cover this year's treasury deficit. —News Item.

AN ANTI-CIGARETTE LAW IN MINNESOTA
Beginning At Midnight Tonight, Sale of "Coffin Nails" Is Strictly Prohibited.
[BY ASSOCIATED PRESS.]
St. Paul, Minn., July 31.—Today was a bargain day for cigarette smokers throughout Minnesota. At midnight tonight, the anti-cigarette law passed by the last legislature becomes effective and dealers were anxious to get rid of their stock before the measure became operative. The new law prohibits the sale or giving away of cigarettes or the paper used in making them and prohibits the keeping of the cigarettes and makings for sale. It exempts jobbers who do an interstate business.

NEW LINCOLN COINS NOW READY FOR USE
Distribution of Pennies Bearing Lincoln's Head Instead of Indian's Begins Monday.
[BY ASSOCIATED PRESS.]
Washington, D. C., July 31.—Distribution of the new cents, which bear the head of Lincoln instead of that of the Indian which has ornamented them for so many years, will begin Monday. The Philadelphia mint has a total of over 20,000,000 of the new coins on hand with which to supply the orders that are coming in from banks throughout the country. As there are 1,500,000,000 pennies of the old style in circulation, however, it will probably be a good many years before the Lincoln coin entirely supplants the familiar Indian head.

NEW PARCELS POST CONTRACT IN EFFECT
Agreements With Denmark and Japan To Carry Packages Goes into Effect Soon.
[BY ASSOCIATED PRESS.]
Washington, D. C., July 31.—Beginning tomorrow the parcels post arrangement recently concluded by the United States with Denmark and Japan will become effective. Parcels for those countries will be accepted up to \$80 in value and eleven pounds in weight. This arrangement is in accordance with the postoffice department's plan to extend the usefulness of the parcels post to foreign countries. The eleven pound weight limit now applies to all countries except France and Sweden, the weight for those countries being four pounds and six ounces. The limit of value, however, is not uniform as to all countries.

SENATE PASSES EMERGENCY APPROPRIATION BILL TODAY
[BY ASSOCIATED PRESS.]
Washington, D. C., July 31.—The senate today passed the urgent deficiency appropriation bill.

GREEN BAY GOLFERS ENJOY VERY EXCITING TOURNAMENT
[BY ASSOCIATED PRESS.]
Green Bay, Wis., July 31.—Herbert Handrich of Oshkosh defeated C. C. Chubb of Oshkosh in the first flight during the final of the golf tournament at the country club this morning 3 up and 2 to play. P. T. Sholes of Sheboygan defeated P. A. Marthou of Marinette in the second flight 2 up and 1 to play. The winner who won out in each place received a handsome cup. Handrich in his last round made a record of 37 holes for the tournament.

Why They're Disappointed.
"Some men sit with folded hands waiting for their ships to come in," remarked the Observer of Events and Things, "who never made a single move toward even raising a sail."

HUGHES TO DELIVER SPEECH OF THE DAY
Principal Speech of "New York Day" At Exposition Will Be Given By The Governor.
[BY ASSOCIATED PRESS.]
Washington, D. C., July 31.—The Seattle exposition promises to be a center of great attraction during the week. Governor Hughes will be on hand Monday for the celebration of New York Day. Tuesday has been designated as Minnesota Day, which will be made notable by the unveiling of a bronze bust of James J. Hill. Governor Johnson of Minnesota will be one of the speakers. Another of the state executives who is expected to visit the exposition during the week is Governor Denney of Illinois, who is to speak at the Illinois Day celebration on Friday.

ENGLISH MONARCH VIEWS BATTLESHIPS
Three Hundred War Vessels of British Navy Drawn up in Review at Portsmouth.
[BY ASSOCIATED PRESS.]
Portsmouth, July 31.—More than three hundred ships of the British navy, the largest assemblage of modern war craft ever seen under any one flag, in their gayest holiday dress, were reviewed by King Edward today, while hundreds of thousands, ashore and aloft, saw the brilliant spectacle. The review, which marked the close of the great naval maneuvers which have been in progress for over a month, took place in the Solent. In the picturesque roadstead from East Cowes to Stokes Bay the great fleet of battleships, cruisers and smaller fighting craft lay at anchor in six long columns. Proceeding from Cowes, King Edward, on board the royal yacht Victoria and Albert, passed along the lines while the great guns belched forth a continuous salute.

OSAKA, JAPAN, SWEEP BY THE FIRE DEMON
[BY ASSOCIATED PRESS.]
Osaka Japan, July 31.—Fire which threatens to destroy the city started at four this morning. In spite of the most energetic efforts to check it, it is still burning. Thousands of buildings, including the world-famous Buddhist temples are already destroyed. A number of persons have been killed and injured. At 9.30 tonight the fire had consumed one-fifth of the town. The flames are apparently uncontrollable.

LANDING OF PILGRIM FATHERS CELEBRATED
Big Historical Pageant For Coming of First New Englanders Was Begun Today.
[BY ASSOCIATED PRESS.]
Duxbury, Mass., July 31.—Duxbury held high carnival today "in celebration of the landing of the Pilgrims at Plymouth and the coming of Miles Standish, John Alden and other Pilgrims to Duxbury, and in honor of their courage, heroism and valor." The program included the dedication of the Miles Standish monument, an address by Hon. John D. Long, and a series of historical pageants depicting events in the history of the Pilgrims in England, Holland and America.

COTTON JUBILEE IN GALVESTON BEGINS
Big Southern Festival Attended by Large Crowds From All Over Texas and Nearby States.
[BY ASSOCIATED PRESS.]
Galveston, Texas, July 31.—Galveston's first annual Cotton Carnival is now under way and there is a large attendance of visitors from all sections of Texas and from neighboring states. Many open air attractions have been provided and the native element, as well as the visitors, are prepared for a week of merriment and pleasure. The festivities will continue for ten days.

OVERLAND LIMITED WENT INTO A DITCH

Chicago, Milwaukee and St. Paul Train in Ditch—Two Persons Killed.
[BY ASSOCIATED PRESS.]
Des Moines, Ia., July 31.—The Overland Limited of the Chicago, Milwaukee and St. Paul went into a ditch going at the rate of sixty miles an hour in the yards of Cambridge today. J. B. Hanson of Marion, a mail clerk, and a passenger whose name was not learned were seriously injured. Twenty others were cut and bruised, but were able to continue the journey. The accident was due to a broken rail. The train was a westbound passenger.

A MANCHURIA FLOOD IS REPORTED TODAY

Chang Chun Province Said to Have Suffered Heavy Loss Through Rivers Overflowing.
[BY ASSOCIATED PRESS.]
Tokio, July 31.—The flood has reached here of a terrible force in the province of Chang Chun, Manchuria. In the city of Kirin a thousand people were drowned and seven thousand houses were submerged.

TYBEE ISLAND HAS SEVERE FIRE LOSS

Famous Hotel Burned and Guests Fled in Their Night Clothes from Structure.
[BY ASSOCIATED PRESS.]
Savannah, Ga., July 31.—The Hotel Tybee on Tybee Island burned shortly before daylight and a hundred guests fled in their night clothes. No one was injured. The loss is a hundred thousand dollars.

Twenty-four-Hour Clock
St. Petersburg, July 31.—Beginning tomorrow the Russian telegraph system will make use of the twenty-four-hour clock, the numerals after twelve to twenty-three being used to designate afternoon.

GOTHAM FINANCIER DIES OF INJURIES

Injuries Received in Auto Accident Cause Death Of Cornelius Cuyler in Biarritz, France.
[BY ASSOCIATED PRESS.]
New York, July 31.—Cornelius Cuyler, President of the United States Mortgage and Trust Company, this city, and prominent in financial and civic affairs, died last night in Biarritz, France as result of injuries sustained in an automobile accident.

DIRIGIBLE BALLOON'S VERY LONG JOURNEY

Count Zeppelin Makes Long Flight of Two Hundred and Twenty Miles Today.
[BY ASSOCIATED PRESS.]
Frankfort, July 31.—The dirigible balloon Zeppelin II, steered by Count Zeppelin, descended here this afternoon safely after having sailed from Friedrichshafen, a distance of about 220 miles, at an average speed of twenty-one miles an hour. Half the time the flight was made against a strong head wind.

Christian Workers' Conference

East Northfield, Mass., July 31.—The twenty-seventh annual session of the General Conference for Christian Workers, one of the series of summer religious assemblies founded by the late Dwight L. Moody, opened here today and will continue for two weeks. Many noted divines and other religious workers are on the program.

REFERENDUM IS TO DECIDE MUCH

FUTURE OF TOM JOHNSON HANGS ON COMING ELECTION

OBIVION IF HE LOSES

While If He Wins, He Can Practically Dictate to Traction Companies What Shall Be Done.
[SPECIAL TO THE GAZETTE.]
Cleveland, O., July 31.—Mayor Johnson's most desperate of all traction campaigns is practically ended and the city is greatly stirred over the referendum election to be held next Tuesday. It is of tremendous importance, for upon its outcome hinges not only the fate of the indefatigable Mayor's latest three-cent-fare traction ordinance, but the success of the fight which he has kept up ever since he became Mayor of this city eight years ago. It is fully realized by both sides that if the ordinance is sustained Mayor Johnson will be master of the situation and in a position to accomplish the object for which he has fought so many years and for the sake of which he has sacrificed a considerable part of his large fortune, but it is equally well understood that the loss of the battle means not merely temporary defeat, but would put an ignominious end to the brilliant political and civic career of the "fighting mayor." The coming election marks the crisis in the mayor's eight years' effort to materialize his traction ideas. If the grant is voted down, many believe, it will mean the complete elimination of the mayor as a figure in the traction question in Cleveland and, in fact, his elimination as a political factor in the city or state. Should the vote be favorable to the Mayor's plan, it is predicted that the Cleveland Railway Company, which he has almost driven out of existence and which he has harried for many years with the votes of Cleveland behind him, will be forced to accept any proposal for settlement Johnson may make. The required six months' notice was given to the railway company that the city would revoke the old three-cent grants at the expiration of six months. Should the vote be in favor of the new ordinance, Johnson's system would, after the expiration of the six months' time, take away nearly per cent of the entire street railway system. Herman J. Schmidt, who has been granted a number of three-cent franchises, plans a new company to take over all the three-cent lines in the city. If the mayor should win his fight. Unprejudiced observers are of the opinion that the chances at the coming election are decidedly against Mayor Johnson. His present term in office will expire in January of next year. Four times already has he secured the approval of the people and has been elected with ever increasing majorities. But the approval of the people, once the mayor's greatest and surest asset, is now extremely doubtful. He lost the former referendum election last fall by 600 votes in a total of 75,000. That election knocked out the grant upon which Mayor Johnson was given control of the entire traction system under a long term from the company. At the same time, it is generally admitted that the position of the street railway company is not much stronger now than it has been at any time since the beginning of the fight. The company has been greatly weakened by the long contest and, even in case it should win the battle on next Tuesday, it would be in an extremely uncertain position. Whatever the outcome of the election may be, the city controls three-fourths of the street railway lines of the city and this would give to the council a powerful weapon against the company. Of course, everything depends upon the result of the vote. If the mayor wins, it is believed he will be able to finance a new company to take over the lines controlled by the municipality, should the Cleveland Railway Co. still refuse to settle upon his plan. It is more difficult to foresee what will happen should Mayor Johnson lose his fight next Tuesday. Only one thing is considered certain in that event, he will certainly be defeated for reelection next November. His council will probably be voted out and a council elected that will immediately settle, regardless of Johnson's plans for which he has fought so long. In that case the settlement will probably be effected upon the plan suggested by Judge Taylor, which provides for the sale of seven tickets for a quarter with a penny charge for transfers. Mayor Johnson insisted that the company must guarantee a maximum fare of not more than a quarter for seven tickets without a charge for transfers. Judge Taylor also suggested that the purchase of the lines be permitted after ten years, while Johnson wants it to be possible in two years. The campaign has been bitter and determined on both sides, but it seems that the city zone have become weary of the long fight and are anxious to have the traction matter definitely settled upon the best terms obtainable under the circumstances.

HISTORIC LANDMARK WILL BE DESTROYED

Bids To Tear Down Anacostia Bridge Received by Commissioners of District of Columbia.
[SPECIAL TO THE GAZETTE.]
Washington, D. C., July 31.—The District commissioners today received bids on the contract to tear down the Anacostia bridge, which is one of the historic landmarks of the national capital. It was over this bridge that John Wilkes Booth sped his horse to escape from the city the night he shot Lincoln. The old bridge has been replaced by a handsome new structure connecting Washington proper with the suburb of Anacostia.

FUNERAL OF MONROE WOMAN HELD TODAY

Mrs. M. A. Morse, Formerly of Beloit, Died in Monroe—Burial Line City.

Monroe, Wis., July 31.—Mrs. M. A. Morse, died here at the home of her sister, Mrs. Wm. Ashworth, after a three years' illness. She was born in 1852 and was married in 1870 to M. A. Morse, whose death occurred at Beloit in 1897. The family lived in Monroe until 1892, when they moved to Beloit. Two sons, Edward and Fred Morse, survive her. Funeral services were held here this morning and the body was taken to Beloit for burial.

Miss Matilda Milken, of this city, died at Kansas City, Mo., July 28, at the home of her mother, Mrs. M. A. Morse, of this city. The body will be brought here for burial.

The summons and complaint in an action for divorce was served upon Christian Spelch, a cheese-maker in Albany township, yesterday. Spelch readily assented to the demand for \$100 suit money and \$50 a month for his wife and three children but declared that the action was a surprise and that he intended to contest it.

Carl Murty, of New Chicago township, pleaded guilty to a charge of operating an upbean and unsanitary cheese factory before Justice Sauterman and was fined \$25 and costs. The complaint was made by Deputy Daley and Food Commissioner Fred Murty.

Mrs. C. S. Dodge left last evening for Independence, Mo., and will leave there Monday with her father, Leopold Heltzer, for a trip through Yellowstone park.

Rev. and Mrs. John Haack and son, of Texas, arrived here last evening on a visit to relatives.

Ed. M. Thorpe left last evening for Williamsburg, Va., where he will visit his parents, Mr. and Mrs. G. W. Thorpe.

Misses Jewell Campbell and Pearl Chambers went to Whitewater yesterday. Miss Campbell will enter the normal school there in the fall.

Mr. and Mrs. T. L. Summerell and daughter, Miss Nellie Summerell, arrived home today from a trip through the west.

Miss Kathryn Skelly, of Aurora, Ill., is here on a visit to friends.

Mrs. Nondl Burky and daughter, Miss Nellie Burky, have gone to Edgerton to visit relatives.

Frank A. Treat saw the Barnum & Bailey circus at Janesville yesterday.

Two hundred Monroe people attended the county foreman's tournament at Monticello yesterday and a good-sized crowd went to Janesville for the circus.

Real Estate Transfers
C. W. Woodson and wife to Mrs. Jessie Woodson \$175 lots 5 & 6 Pleasant View Park Janesville.

Julia Nagle to Henry Ebbott \$125 pt. 1/2 sec. 4, 4-1/2.

Harry O. Nowlin to W. J. Harrelson et al \$1 pt. section 1, 3-1/2.

Bert Van Heester and wife to Wm. Burridge et al \$1 pt. section 5, 3-1/2.

Amanda Skelly to Willard J. Skelly \$200 pt. lot 2 Bates & Connell's Add. Janesville.

Anna Newman to Alice A. Robinson pt. 1/2 sec. 27, 4-1/2.

Edwin T. Shadel and wife to August Yahnke et al \$3,500 pt. 1/2 sec. 28, Milton.

Frank Horton and wife to James Joyce et al \$500 lot 7-15 Edgerton and other land.

August F. Yahnke et al to Edwin T. Shadel \$6,500.

EDGERTON.
Edgerton, July 31.—Mr. and Mrs. Ed. Perry and two children and Mrs. Ed. O'Farrell.

Mr. and Mrs. Gus Baumgardner are packing household goods intending to go to Milwaukee to live.

The excavations for the improvements of the bank and Post Office are being made, a modern heating plant is to be installed and both places will be enlarged.

Skellys' Home Ball Team of Milwaukee, play the Edgerton Glints at Athletic Park Sunday.

Mr. Summers of Lake Mills came here with his family and called on J. L. Leary today.

Mr. Summers of the Society of J. L. Leary, at Murray's Grove Tuesday are being made. There will be two ball games, a band concert and races of all kinds. Picnic dinner will be served.

Over 300 Edgerton people attended the circus yesterday at Janesville.

Frank Horton has sold his Hvery business to Joyce & Co.

WALWORTH COUNTY VETS TO HAVE BIG BLOW-OUT

This year's reunion of the soldiers and sailors of Walworth county will be held in Strassman's Grove, Whitewater, September first. A business session will take place in the forenoon, and in the afternoon the reunion proper, when there will be a feast of good things, including addresses by Governor Hord, Gov. Peck, Department Commander Grinnell, Asst. Adjt. General McKay, Post Commander-in-Chief A. G. Wessner, Post Department Commander Phyllis Norcross and others, not to mention vocal and instrumental music. In the evening there will be an old-fashioned camp fire.

Boys and girls of the district, come and bring your sons and daughters and your neighbors. Whitewater Commanders and others are planning as good a time as Eldorado. Lake Geneva and Delavan have given them in attendance at previous reunions, which will be doing well enough.

Remember the date; watch for future announcements.

J. A. WATROUS, President.
P. C. KISER, Secretary.

Patents to Inventors.
Benedict, McCall & Caldwell, Solicitors of Patents, Majestic Bldg., Milwaukee report patents issued to Wisconsin inventors July 20, 1909 as follows:

I. N. Anderson, Racine, Nut-lock;

C. F. Dallman, Antigo, Holding machine;

C. S. Drake, Milwaukee, Clearing machine;

J. F. Gall, Kenosha, Bufling machine;

D. C. Jackson, Buffalo, Electric motor;

C. A. Lee, Neenah, Candy-pull;

JANESVILLE MIGHT HAVE THE MEETING

Tri State Mining Association Seeking Place For Their Next Session.

George Girling, Secretary of the Tri State Mining Association writes that a number of inquiries have been made lately as to the time and place of holding the next meeting of the Tri State Mining Association. The Chicago Business League of Milwaukee has extended a pressing invitation to hold a meeting in that city. Suggestions have also been made favoring Dubuque, Plattville, Galena, Chicago, Janesville and Madison. The officers and executive committee have taken no action in this matter, preferring to refer it direct to the members and therefore they are asked to record their preference and mail it to the secretary at once.

The Tri State Mining Association is a most opportune time to resume its active manner the work which the association was doing when the financial panic suddenly overcame the country, and the mining industry, in common with all other lines of business, was abruptly halted. The consensus of opinion of the most prominent financial and business men of the country is that this is the beginning of an era of good times and prosperity, and therefore the mining industry of the Tri-State field certainly should not be the last to take advantage of the situation.

The meetings which the association has held heretofore have been of vast benefit to the district. Among the many well known scientists and experts who have presented papers on addresses have been Prof. Grant Bain, Hetchkins, Calvin, Henschel and Brimacombe, while Mr. Snyder talked of an electric zinc furnace in a way that attracted wide attention. The general discussions at these meetings have ranged over the entire mining field—ore deposits, development, mining and milling operations, production cost, power, freight rates and financing.

The social side of the meetings has been of inestimable value, bringing to together the operators from the various parts of the district and establishing a feeling of friendliness and harmony that never before existed. And best of all, there is the good the meetings have done in attracting the attention of the outside world and making known some of the truths regarding the wonderful resources and advantages of the Tri State field.

This resulted in bringing into the district not only some of the money so badly needed to develop and equip some of the many rich properties lying dormant, but it had the effect of turning the eyes of mining engineers, chemists, electricians and other experts toward the vast wealth of this accessible region and efforts can hardly be counted in dollars and cents.

The Tri State Mining association, as provided in its original articles of association, is prohibited from having any connection with, or making any report upon, any particular property. It is an association for the advancement of the whole district, and as such it can accomplish much good if its plans are on a broad, comprehensive and public-spirited scale. By presenting a solid united front to the world, the future of the Tri State district, the richest lead and zinc region in the country, will be assured.

JANESVILLE MIGHT HAVE THE MEETING

Tri State Mining Association Seeking Place For Their Next Session.

George Girling, Secretary of the Tri State Mining Association writes that a number of inquiries have been made lately as to the time and place of holding the next meeting of the Tri State Mining Association. The Chicago Business League of Milwaukee has extended a pressing invitation to hold a meeting in that city. Suggestions have also been made favoring Dubuque, Plattville, Galena, Chicago, Janesville and Madison. The officers and executive committee have taken no action in this matter, preferring to refer it direct to the members and therefore they are asked to record their preference and mail it to the secretary at once.

The Tri State Mining Association is a most opportune time to resume its active manner the work which the association was doing when the financial panic suddenly overcame the country, and the mining industry, in common with all other lines of business, was abruptly halted. The consensus of opinion of the most prominent financial and business men of the country is that this is the beginning of an era of good times and prosperity, and therefore the mining industry of the Tri-State field certainly should not be the last to take advantage of the situation.

The meetings which the association has held heretofore have been of vast benefit to the district. Among the many well known scientists and experts who have presented papers on addresses have been Prof. Grant Bain, Hetchkins, Calvin, Henschel and Brimacombe, while Mr. Snyder talked of an electric zinc furnace in a way that attracted wide attention. The general discussions at these meetings have ranged over the entire mining field—ore deposits, development, mining and milling operations, production cost, power, freight rates and financing.

The social side of the meetings has been of inestimable value, bringing to together the operators from the various parts of the district and establishing a feeling of friendliness and harmony that never before existed. And best of all, there is the good the meetings have done in attracting the attention of the outside world and making known some of the truths regarding the wonderful resources and advantages of the Tri State field.

This resulted in bringing into the district not only some of the money so badly needed to develop and equip some of the many rich properties lying dormant, but it had the effect of turning the eyes of mining engineers, chemists, electricians and other experts toward the vast wealth of this accessible region and efforts can hardly be counted in dollars and cents.

The Tri State Mining association, as provided in its original articles of association, is prohibited from having any connection with, or making any report upon, any particular property. It is an association for the advancement of the whole district, and as such it can accomplish much good if its plans are on a broad, comprehensive and public-spirited scale. By presenting a solid united front to the world, the future of the Tri State district, the richest lead and zinc region in the country, will be assured.

MICHAEL HEITLER OR "MIKE THE PIKE," A POWER IN THE CHICAGO UNDER WORLD.

BROADHEAD.
Brookhead, July 31.—Miss Maud Terry is visiting friends in Madison. Miss Maud Terry, who came home from Janesville on Tuesday and returned to that city again on Thursday to remain for some time.

C. E. Doolittle spent Wednesday in Orono on business.

Mr. and Mrs. M. P. Pengra have been spending the week with friends near Juda.

Fred Schultz, of Albany, spent a day or two here the past week looking after business.

Madame R. B. Gifford, of Monroe, and H. H. Roderick, of Juda, were guests of Brookhead relations Wednesday.

Mr. Herbert Auk, of Lancaster, who spent a week camping at Decatur Lake returned home on Tuesday. On account of the rain he left his auto and will return for it in a couple of weeks.

Mrs. W. B. Pengra and Miss Lena V. Newman were at Juda on Wednesday to attend the funeral of Mrs. J. C. McNaught.

Mr. and Mrs. Donmyer spent Wednesday in Monroe.

Dr. Carl Doolittle returned on Thursday morning (afternoon) after having spent a fortnight here with friends and camping at Decatur Lake.

The residence of Mr. W. N. Cobb is rapidly nearing completion. It is of bungalow style and presents a very neat and attractive appearance and is also very conveniently arranged.

Mrs. Florence Richter and the baby left on Friday for Janesville to spend a day or two, going from that city on to Genoa, Illinois, where they will be guests of Mrs. Grace Crawford.

Mrs. J. J. Diemer and little daughter, Leila, spent the past few days in Janesville.

Vol. Stewart of St. Paul, Minn., was a short-time visitor in Brookhead Thursday morning. He was passing through and stopped off between trains only to renew old acquaintances.

Mrs. George Alcock of Plattville, who has been spending some weeks in this city and at Albany, returned on Friday to her home.

J. H. Shedd was overcome with the heat on Thursday while downtown and fell to the sidewalk. A physician restored him to consciousness after

some time and he was later taken home. He is recovering slowly.

Mrs. Jack Schwartz and children of Burlington, who were guests of her brother, Jas. Hresco, and family, returned to their homes on Friday.

Prof. P. H. Rohberg of Kiel, Wis., and Miss Helen Maas of Wauwatosa came to Brookhead across country in an auto on Thursday and are visiting friends. Mr. Rohberg is an old-time Brookhead boy and his many friends are pleased to meet him again.

Ed. Hoyer of Albany is here awaiting John Meier in the work of getting his new house built. It is to be a modern up-to-date residence.

Miss Ina Christ of Juda spent Friday in Brookhead.

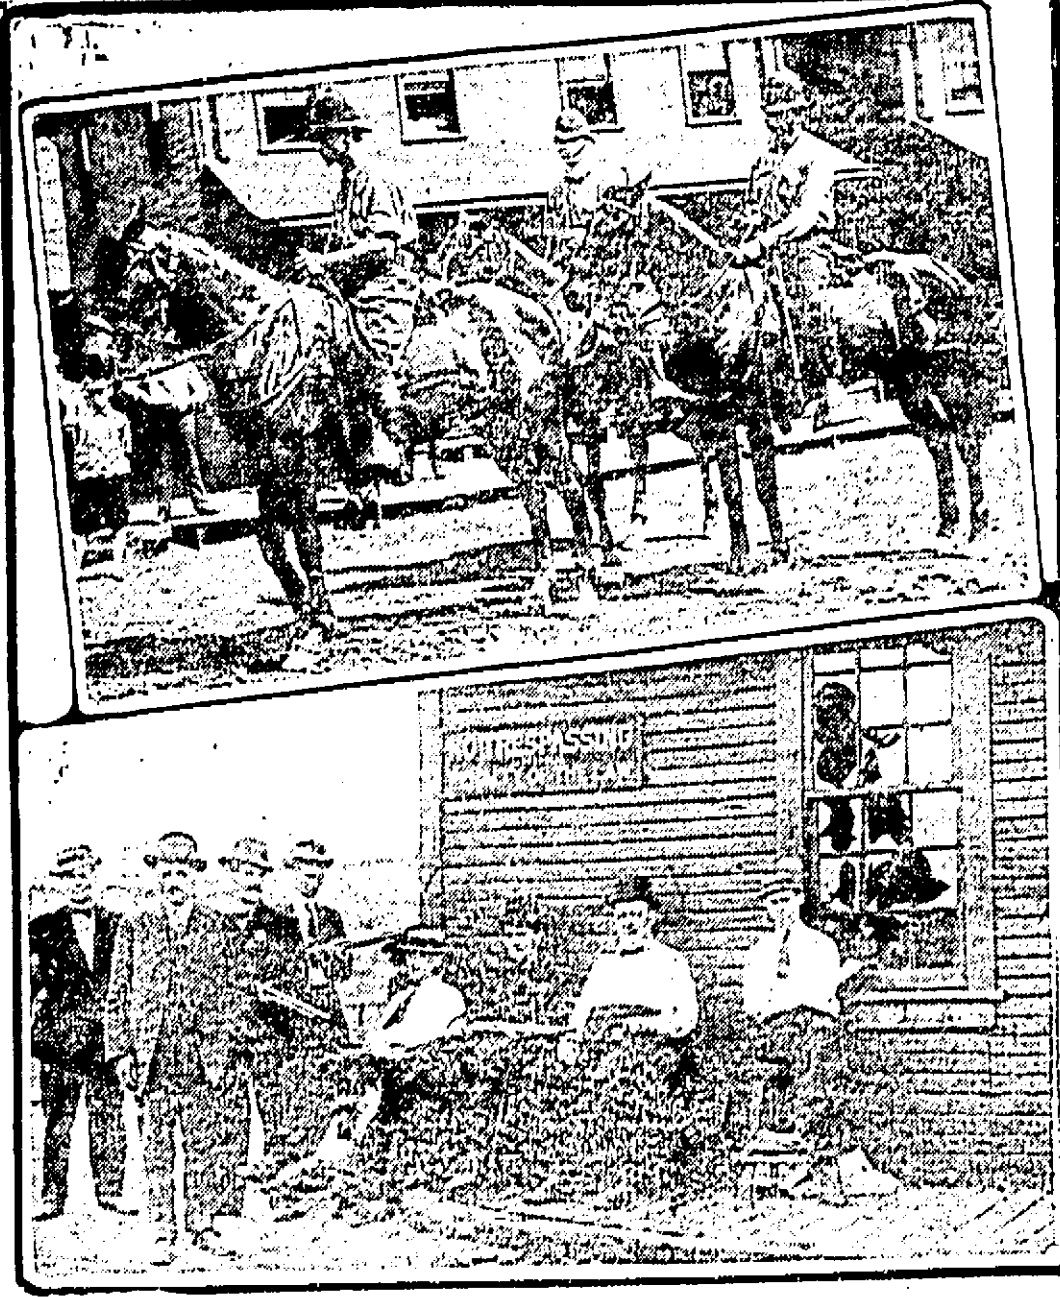

Mr. and Mrs. Will Kenyon and baby of Kansas City, Mo., are guests of the lady's parents, Mr. and Mrs. Oliver Kittelsen.

Perhaps a little information regarding recent work done by the local telephone company may prove of interest to many readers: A new line up in Spring Valley on from Will Chano's connects with Timm's, Simpson's, Ole Gravard's, Mrs. Olive Capler's, Ed. Capler's, Walter Hahnburn's, W. Gumpel's and Fred Thom's and others. No doubt there are others in that vicinity who will want one put in later and they can get it by notifying "central."

C. E. Doolittle is arranging his boat so as to accommodate the new launch which he and Mason Hall have just put into commission.

Considering the dry time crops in this vicinity are looking remarkably well. The harvesting of a fine crop of hay is about completed. It is claimed by some that the crop will be light but on the whole there will be an average crop. In many instances the crop suffered much on account of lack of moisture, especially where cultivation had not been frequent. Others will have a bumper crop. Tobacco has done remarkably well and with sufficient moisture from now on will be a good yield of splendid quality.

An alarm of fire called out the fire department yesterday on a wild goose chase. Whether it was the work of mischievous boys or an accidental alarm is not known, but the author could not be located.

SCENES FROM LATE STRIKE AT MCKEES ROCK.

At Top—Mounted constabulary patrolling the streets at McKees Rocks. At Bottom—Constables guarding one of the entrances of the steel mills. This office was stormed by the strikers with cobbles and shot and the windows and doors broken. The guards are equipped with modern army rifles and present a dangerous foe to any rioters who had attempted a second time to storm the mills.

GERMAN COUNTESS CAUSES JEALOUSY AT BEVERLY.

Mrs. William Howard Taft at left. Countess von Bernstorff, wife of the German ambassador, at right.

Countess von Bernstorff, wife of the German ambassador, is the other woman of the diplomatic set since the receipt of the gift by Mrs. Taft.

Mrs. Taft was immensely pleased with the gracious token of esteem. As for the president himself, he considers the book one of the most precious in his library, containing as it does so much that concerns his father whose memory he has always held in the most extravagant veneration.

The Japanese minister though long a great fan, is almost forgotten in the presidential set at Beverly.

Even Mrs. Bryce a great favorite, is rather pulling beside the sudden rise of the Countess von Bernstorff. This is all more wonderful as the von Bernstorff have not up to now mixed in the social life of Washington any more than their position absolutely demanded.

As a result of the countess' gift the Tafts are more than merely friendly to the count and his charming wife. Indeed the German ambassador's wife is destined to outshine all the other women of the diplomatic set since the receipt of the gift by Mrs. Taft.

Mrs. Taft was immensely pleased with the gracious token of esteem. As for the president himself, he considers the book one of the most precious in his library, containing as it does so much that concerns his father whose memory he has always held in the most extravagant veneration.

Every One.
Every woman believes that if she should die right after her husband had scolded her the coroner would find her heart covered with black and blue spots.—Atchison Globe.

On the Spot.
Many a girl has been proposed to because she happened to be at the right place just after the young man had been killed.

Extra Low Rates To Eastern Resorts

A new feature in Eastern summer travel inaugurated by the

New York Central Lines

From the Great Lakes to the sea—the playgrounds of America—there are scores of vacation spots where every sport and pleasure possible to think of can be enjoyed to the full. To give everyone the opportunity to visit these resorts this year the following extraordinarily low fares have been made in connection with the various lines

From Janesville, Wis., To New York and Return

\$31.85

Any Route to CHICAGO, thence

LAKE SHORE

\$30.50

Any Route to CHICAGO, thence

Michigan Central

To Boston and Return

\$33.25

Any Route to CHICAGO, thence

Lake Shore or Michigan Central

Correspondingly low fares to the Thousand Islands, Adirondack, White and Green mountains, Lake George, Lake Champlain and points in Canada and the seashore.

The route is cool and scenic—the trip a holiday in itself—on water-level tracks, via shores of Great Lakes, Niagara Falls, Mohawk River and Hudson River, to New York; Berkshire Hills, instead of Hudson River, to Boston.

Liberal stop-over privileges at Niagara Falls and other points, and option of lake trip from Detroit or Cleveland to Buffalo, and Hudson River steamers Albany to New York, without extra charge.

For detailed information regarding these tickets, maps, folders, time-tables, etc., ask local ticket agent or address

OUR SATURDAY NIGHT
One of the Sunday papers recently contained the story of a barefooted boy who entered a drugstore, in the little town in Alabama where he lived 50 years ago, and picked up a five-dollar bill, which was lying on the counter, and walked out.
The loss was not discovered and the boy was five dollars ahead, but the thought came to him, every now and then, that the money didn't belong to him, and then the question of honesty, according to his mother's creed, annoyed him.
Then he argued that he had not stolen the money, but just found it, and soon the incident was forgotten. He found a place to work, was faithful and ambitious, and a few years later found him in business for himself, and making money.
As the years went by fortunes continued to smile, and prosperity came to him in generous measure, so that when he retired at the age of 65 when he was fully realized as far as wealth is concerned.
In the days of leisure which followed, he had time to think and the loved which he had most was prompted by the question, "How about that \$5?"
At first he was able to dismiss it from his mind, but it continued to haunt him in his dreams, and was the first thing to greet him in the morning.
The old arguments did not satisfy, for the money picked up on the counter so long ago belonged to somebody, but certainly not to him and now he wondered why he took it, and as the silent voice kept talking the thought was impressed that he was a thief.
It was the only blot on a life which for half a century had been upright and honest, but what could he do about it. Then the voice whispered, "Make good," and so he started out one morning for the long journey across the continent, back to the little town of his boyhood, on his errand of restitution.
The same old main street of the town, with its old-fashioned buildings, was still there, and the drugstore on the corner where a stranger greeted him, for the old doctor, who owned it 50 years ago, had been dead for many years.
In a lawyer's office, across the street, he learned that there were three daughters living in different states, and so after compounding the interest on \$5 for 50 years he left with the attorney \$100 to be equally divided among the three heirs, and went home with the music of the silent voice ringing in his ears the happy refrain, "Well done."

Some people will consider this a subtle attack of conscience and say that the old man was in his dotage, and in need of a guardian, but he was never more sane than when he wrote the check for \$100.
The government keeps a conscience fund which is growing every year, and many contributors are old men who have defrauded the treasury department in various ways, but who propose to have a clear slate when they retire from the scene of action.
The question of right and wrong is supposed to be a simple question, and the most of us are quick to pass judgment on what is wrong for the other fellow to do. Some people are so zealous in pursuing this occupation

that they have the appearance of being over-righteous.
These men usually pass as reformers. Many of them believe that the saloon is the one and only great evil which is carrying men down to destruction and their conscience is so abnormally developed along this line that common honesty is lost in the shuffle.
The saloon is an unmitigated evil, and so is the assassin. It is wrong to drink but right to beat the tax list. One of these ardent enthusiasts, on his way to Chicago, the other morning, stopped in the midst of a discussion to go forward and meet the conductor, as he entered the car.
Soon he came back and said in a low voice: "It's all right for a dollar, and went on to denounce things in general. His friend listened patiently, but not under the collar, and finally said:
"Oh, cut it out; you make me weary. What kind of a conscience have you got anyway? I drink a glass of beer when I want it, but I would not more think of compounding a felony with that conductor, to rob the railroad company, than I would think of attempting to pick your pocket."
"But everybody does it," was the reply, "and what's the odds? It's a soulless corporation anyway."
"That's the argument which seems to satisfy this class of plunderers—right to beat a corporation, but wrong to steal, because the Bible says so."
In the New York subway a passenger pays his fare as he passes through the station, but once in the tunnel he can ride back and forth all day for a nickel. Occasionally a man is found who is so ambitious to beat the corporation that he sits out the day on subway trains.
The state of Iowa found it necessary to pass a law to compel her citizens to be honest, and no one is permitted to enter a train from any station without a ticket.

Conscience, which is the voice of God in every soul created, always says, "Do right." The voice may be clear and distinct, and is always a safe guide to follow, or it may be faint as in the case of the man who found the money, but its pleadings never vary.
Judgment, influenced by education and environment, determines for each individual what right is, and in a Christian land the principles of right and wrong are so well established that a code of moral law is readily adopted, and yet there are some questionable like the finding of money and keeping it, evasion of taxes and beating corporations, which many professing good people practice with apparently a clear conscience.
It is possible to practice a course of wrongdoing so long that it seems right. This was true of the officers of the old life insurance companies when they were called to account for speculating with trust funds, and of the railroads on the question of rebates, but thanks to ex-President Roosevelt, the public conscience was quickened and a higher standard of business morality demanded.
Much is said about evangelizing the world and the work of Billy Sunday, and that class of workers is freely endorsed, but history will record that Theodore Roosevelt accomplished more in advancing the cause of common honesty in the hearts of the American people than all other influences combined.
The public conscience is a combination of units, and a mighty power for either good or evil. Just now this great energy is directed against the forces which threaten to weaken and destroy national life.
The government of a town or city, a state or nation, is as good as the people will to have it and the voice of the public conscience determines.
The states and localities which have recently voted out the saloon, have been influenced by this silent monitor, and the end is not yet.
The battlefield of every life is on home ground where the forces of good and evil are contending for the mastery. The voice of conscience leads the forces for the good and although unheeded for 50 years, rings true and promises victory when obeyed.
The old man went home to sleep in peace, when he listened to the voice, and responded to its pleadings. There's a lesson in the story for every weary traveler.

Uncle Walt of Emporia
By WALT MASON
(Copyright, 1909, by George Mathew Adams.)
Mehought I'd reach the limit of all harm, when I was torn by traitors from my throne FARMER ABDUL'S SOLILOQUY upon a barren farm, where o'ne the cows are merely skin and bone. But as I walk, unpoleaxed, through the grass, unhurt by man-traps in the bosky dell, I wish no more for Yildiz towers of brass: I cry aloud: "Bismillah! All is well!" Here may I pluck the pumpkin from the tree, and find no bombs within its yellow shell; here may I pluck the fragrant early pea, and find no poison in its taste or smell. I walk the fields and peace is on my brow, no armed assassin lurk behind the stack; and I can sit and milk my brindin' cow, and no one comes to stab me in the back. A gentle horse is here when I would ride, and many a time on him of late I rode, and found no daggers sticking through his hide, and I feel sure that he will not explode. A happy life, for one who's tired of hard aces, tell me the day when throne and scepter fell: your Uncle Ab had his ups and downs, and now I cry: "Bismillah! All is well!"

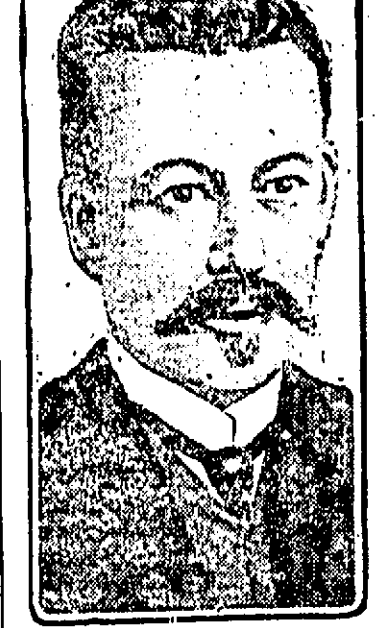

Happy Definition.
Genius is a combination of aspiration and inspiration.—Irish Proverb.

Heart to Heart Talks.
By EDWIN A. NYE.
Copyright, 1909, by American Press Association.

THE SLEEP CURE.
In the days of sleep cures and sanitariums permit us to suggest one of nature's cures—the sleep cure.
Lack of sleep causes ill health and nervousness. You cannot cheat nature and get off scot free.
Most people are too busy to sleep—too busy making money or taking pleasure.
The society woman rushes after entertainment when she ought to be in bed.
The workman or working woman is so keen in the desire to get on that the result is overwork and undersleep.
The housewife worries over the details of her daily task and neglects the recuperation of necessary sleep.
The business man takes his business home with him, wakes up in the night to consider his plans, and the outcome is nervous breakdown.
Now—
Sleep is the one medicine in all the pharmacopoeia of nature for the fagged mind and the worn body. It is the greatest blessing vouchsafed to tired and weary mortals.
Shakespeare the wise knew. He calls it "nature's sweet restorer." In seven words he tells its gracious function—it "knits up the raveled sleeve of care."
Therefore—
Take an inventory of your habit for an average twenty-four hours. Are you curtailing your necessary hours of sleep? If so you are burning the candle of life at both ends.
Change your habit.
Eight hours of sleep may be sufficient for the ordinary person in body, but if you are overstrained in body or mind—"run down"—go to bed early and get up late.
Stay in bed nine or ten hours.
It may not be easy for you to sleep so long at the first. But persevere. Next, rest and relax. Relax is the word. Note how your dog will relax when he rests. He throws himself down in utter abandon. Body, head and tail go down in a bunch.
Take off the strain. Relax.
Supplemental to this habit of full hours devoted to sleep, take a brief nap in the middle of the day.
If you cannot sleep in midday, rest—body, muscles, nerves, brain—rest and relax. If you cannot sleep, relax and doze. An instant of forgetfulness will help you. You will wake up in a new world.
Whenever from any cause you are compelled to lose your proper sleep, make it up. Nature will do the rest. Sleep and knit up the raveled sleeve of care.

AN ARGUMENT.
Mother—Didn't I tell you, Arthur, that you were not to go out in a cab?
Arthur—But, mother, the man told me that was one of the best ways in the world to learn how to avoid.

CHANGE YOUR HABIT.
Eight hours of sleep may be sufficient for the ordinary person in body, but if you are overstrained in body or mind—"run down"—go to bed early and get up late.
Stay in bed nine or ten hours.
It may not be easy for you to sleep so long at the first. But persevere. Next, rest and relax. Relax is the word. Note how your dog will relax when he rests. He throws himself down in utter abandon. Body, head and tail go down in a bunch.
Take off the strain. Relax.

Whenever from any cause you are compelled to lose your proper sleep, make it up. Nature will do the rest. Sleep and knit up the raveled sleeve of care.

"LIVE WIRES."
Aristide Briand.

Aristide Briand, who has been asked to become the new premier of the French government was promoted a few months ago the office of minister of public instruction and public worship to that of minister of justice. He has been considered for some time the natural successor of Clemenceau in the event of that minister's sudden relinquishing his leadership. St. Briand is one of the strongest men in French public life in opinion of many observers. He is an orator of extraordinary power and persuasiveness and has been in parliament only since 1902, thus winning his way to the top in the short space of seven years. He started out in life as a lawyer in a small country town and when he went to Paris turned to journalism rather than law, becoming in course of time editor of La Lanterne, one of the principal radical papers of the capital. Briand has strong socialistic tendencies.

The Philosopher of Folly.
"There are a lot of men," says the Philosopher of Folly, "who would never be recognized as fools if they didn't fall in love and give themselves away."
Condemnation of Envy.
Envy is almost the only vice that is practical at all times and in every place, the only passion that can never be quiet for want of irritation; its effects, therefore, are everywhere discoverable, and its attacks always to be dreaded.—Dr. Johnson.

Wise Limitation on Growth.
If a human being continued to grow at the same rate as he does in his first year he would be 68 feet tall at the age of 10.

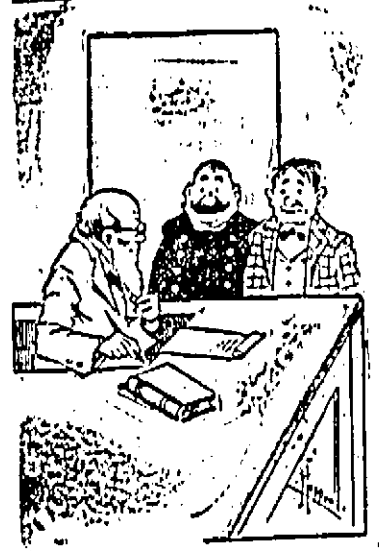

POLITE ATTENTION.
Customer—I would like some butter, please.
New Assistant—State of cigar store—Medium, mild or strong?

AN ARGUMENT.
Mother—Didn't I tell you, Arthur, that you were not to go out in a cab?
Arthur—But, mother, the man told me that was one of the best ways in the world to learn how to avoid.

"What is a chauffeur, Hans?"
"A chauffeur is a man who is smart enough to run an auto, but too smart to own one."

MARRIED HUSBAND.
Judge—Are you married?
Witness—No, sir.
Judge—Then your pardon. Judge found in his pocket a recipe for curing a woman's handwriting, a week old.

ENOUGH IT SAID.
Bill—So you are going on the stage, will you carry a book?
Nell—No; the manager said I'd get the book.

Too Fond of Domestic Animals.
From a Japanese newspaper: "A man named Uyedan Nikimatsu, aged 28, of Kobe, has been sentenced to ten years' imprisonment for stealing a young dog belonging to the proprietor of a piece-goods store at Tachibana-dori, three-chome, Kobe. It appears that the accused had previously been convicted of stealing a cat."

Buy in Janesville.

Trees in Our City Streets
grow higher and wider every year.
Wet leaves and branches touching bare wires cause noise and crosses and other telephone troubles.
The remedy is to enclose wires in lead-covered cables. That is expensive, but in the end it pays.
The Rock County Telephone Company is putting in place eight new cables this summer, enclosing hundreds of its wires, at an expense of several thousand dollars.
That means GOOD SERVICE regardless of wind or rain or storms.
Our telephones can be had at \$1 per month.

YOU WOULD CHANGE If You Saw Good Reason For It
Many women are satisfied with the flour they use; many are not. The users of
JERSEY LILY FLOUR
are satisfied as is proven by the fact that one-fifth of all the homes in this community use Jersey Lily and have used it for years. This record of continuous use (over 75,000 barrels having been consumed) means that the flour has been of unvarying high quality. Jersey Lily is the best flour it is possible to produce from best northern wheat. It is sold at regular prices always—not like other good flour, at advanced prices.
You are anxious to practice economy. Why not try Jersey Lily flour? It will be entirely satisfactory. Your grocer has instructions to refund your money if it is not. Try a sack at our risk.
JENNISON BROS. & CO.

A Non Adulterated Bread
NOT one grain of alum is ever used in Yankee Bread. It seems almost unnecessary to make this statement, because alum is scarcely ever used in any bread nowadays. It is not needed.
There was a time when some bakers used it to whiten bread when the flour would happen to be of poor quality. But that was years ago.
Now we blend our flour. For instance—we buy three of the best patent flours direct from the mill. We order in carload lots so as to get a uniform grade of the highest quality. Then we mix these flours according to our special formula. The result is a perfectly white loaf of uniform quality.
Our wagon passes your home every day. Stop it tomorrow and get a loaf of this delicious bread or your grocer has it at 5c the loaf.

Woman and Her Apparel.
To a woman, even the prospect of new and pretty apparel is positively invigorating, the selection is another most bracing proceeding, while the actual wearing of the clothes completes a certain cure for depression.

A Recipe for Good Looks

The first "ingredient" in the recipe for good looks is pretty teeth.

Given a fine, good looking set of teeth, no man or woman need have any fear that his or her smile will be anything but good looking.

Next to the eyes, the teeth are most in evidence.

Every word that is uttered shows the teeth; every smile shows the teeth; every time one takes a mouthful of food the teeth are in evidence, be they good, bad, or a mixture of both.

We put the question directly up to you:

Do you want to make a good impression?

Then have your teeth cared for by the Dentist.

I believe I am fitted by experience, equipment and ability to do well by you.

Let me care for your mouth.

DR. F. T. RICHARDS

GRADUATE DENTIST.

Plan Caught Fisherman.

Catching a monster fish and the line becoming hooked to the boat underneath, where he could not reach it, Felipe Campino, a fisherman of Bahia Cruz, Mex., was dragged out to sea and was missing two days before he could get back. Friends thought his boat had been swamped.

BUTTER MOLD IN PARTS

Sides Can Be Taken Away, Leaving Print in Perfect Shape.

Of especial interest to dairymen and farmers is the butter mold designed by a Colorado man, but it is also of interest to those whose acquaintance with butter is limited to meeting it on the table. The chief advantage of this mold—which is a pronounced innovation—is that the sides come apart and the butter can be taken out with ease and without spoiling the form or print. The mold consists of a

CLAMP HOLDS MOLD TIGHT.

base portion with handle attached and raised portion to form the bottom of the mold box. The sides are made in two parts, arranged to interlock, and held in position when they are interlocked by a clamping member that swings over and holds them firmly together. In the old style butter mold it was necessary to push the print out, the sides being solid. In this form all that is required is to open the clamping device, take the sides off and the butter appears in perfect condition.

BUSY TIMES AT POLICE STATION

ERUPTION OF CRIME FRIDAY DUE TO CIRCUS PRESENCE.

MANY SUSPECTS ARRESTED

Hold Up Of Three Men Coming From The Show—Drunk Locked Up.

An eruption of crime, ranging from highway robbery with violence to house breaking and petty theft, visited the city yesterday and kept the police on the jump until late in the evening. The crimes committed are all laid at the door of employees or hangers on of the circus and would seem to spoil the reputation which the management claims, that of having an honest and law abiding company.

Highway Robbery.

The highway robbery in which Frank Clement of Edgerton was beaten in a scuffle, occurred last night about nine o'clock near the circus grounds. From the story which the three victims told, the police last night and this morning, it is exceedingly hard to get a complete and accurate account of the incident as all three of the stories vary in many particulars.

Went To Show.

It seems that Frank Clement, who lives in Edgerton, R. Hendorf and his wife, accompanied by a young man by the name of Louis Swisher, were walking west from Clement's early last night, with a circus, together with Swisher, stopped on the bridge to talk with several circus hangers.

At The Grounds.

After conversing a few moments, they rejoined Hendorf and his wife who had waited for them and proceeded to the grounds where they took in several late shows. After staying about the grounds until about nine o'clock, they started to return to the city by the road which leads to the brewery.

Were Attacked.

They stopped to purchase some food at the stand which stood on the corner, and then walked forward, Clement and Swisher leading the way. They had gone far, when Hendorf, who seems to tell the most probable story, saw four men, three negroes and one white man, leap from the willows which fringe the road, seize Swisher about the neck and choke him.

Knocked Into Ditch.

Clement, when he tried to interfere, was struck down by one negro, and rendered unconscious. That was all that Hendorf remembered for the next instant he was struck twice, knocked into the ditch and robbed of \$1.50 which his assailants secured after they had dragged him up on the road. Clement claims that he was relieved of over \$7 while Swisher, who ran as soon as he was released, claims to have lost \$4.40.

Called For Aid.

After he had been searched, Hendorf ran back to the corner where his wife was standing, and seeing that his assailants had disappeared, came back and calling for aid, got Clement into a hack belonging to the Goodman Livery and brought him to the home of his mother-in-law, Mrs. Dunphy, 325 Milton Ave. Clement was bleeding profusely from two bad cuts on his head and according to Dr. Morrill who dressed the wounds, appeared to be "batty".

Go To Police.

The trio were taken immediately to the police station and told their stories. Swisher, accompanied by Officer Mason, proceeded immediately to the grounds, where he picked out one of the assailants, Louis Carr. Carr denies that he took any share in the robbery but was one of the show grounds at the time. His story is borne out by the canvas boxes, who saw him there at the time.

Warrant Sworn Out.

It is not thought that the case against Carr will hold as there are several discrepancies in the stories told. District attorney heard their stories this morning and made out a complaint against Carr, who appeared at this afternoon in municipal court.

Carr was given his liberty this afternoon.

House Entered.

In addition to entering the homes of Herman Erick and Graham Galbraith, it is thought that employees or hangers on of the circus broke into the residence of J. H. Hubbard, 209 Western Ave., last night at eight o'clock, scattered the contents of tables and drawers all over the floor, placed what they wished to carry away in a heavy leather suitcase, and made their escape through a window in the side of the house which they had broken in order to enter. No trace of the robbers or the missing suit case has been discovered.

Pickpockets.

Information furnished by circus officials, led to the capture of six lovely a quintet of "dips" as ever greeted the cooler with their presence. It is claimed that the light-fingered gentry tried to "frisk" one of the ticket-sellers and this being against the rules of the game, led to their capture. The prisoners were captured near the show grounds and handed out a fine of five dollars and fined to a fine of five dollars and fined to a fine of five dollars.

Dr. George H. Fox will be absent from office until Saturday, Aug. 7, 1909.

CLINTON CHOSEN FOR A VETERAN'S REUNION

Annual Meeting of the Rock County Soldiers and Sailors Union, On August 4th.

On August Fourth the annual reunion of the Rock County Ex-Soldiers and Sailors Union will be held at Clinton Junction. The Janesville members will go down by the eleven o'clock train and will open in the opera house. At twelve o'clock a dinner will be served by the Clinton Woman's Relief Corps. At one thirty the bugle will blow assembly at Barker's Grove and an official program will be given. Made by the drum corps opens the exercises followed by a prayer by Commander W. F. Brown of Hollet, music by the Clinton quartette and address by W. J. McKay. A. A. G. of the department of Wisconsin. Comrade W. J. Hays will give recitations and songs and other short addresses will be made. D. H. Leonard is president and J. A. Campbell secretary. It is expected that there will be a large delegation from Janesville, Milton, Edgerton and Evansville and Hollet present.

Nerves Affected.

Several visitors whose nerves had been affected by the excitement of the day were locked up overnight in order that they might not give Janesville a bad reputation for hospitality if they arrived home in an unmanageable condition. They were released this morning.

Went to the Circus—Last Evening and is Playing Around This Morning.

Through an error in understanding a telephone message the Gazette announced last evening that William Hutton, aged ten, was badly injured by being run over by a four-horse team. While the boy was run over, he was not slightly injured and went to the circus last evening and was playing about as usual this morning. The accident was not due to any carelessness on the part of the driver of the team—Alderman Sheridan—and according to the story of the boy's mother, the child was entirely to blame. Despite the warnings of his mother he had stood in front of an oncoming car until it was nearly onto him and then stepped in front of a team driven by Alderman Sheridan. He was struck by one of the tugs of the horses and Alderman Sheridan tried to turn out and then rolled under the wheels, one of which passed over his hip. The team was quickly stopped and the child taken in the rig to his home, 622 South Main street, and medical aid summoned. Alderman Sheridan did all in his power to prevent the accident, but owing to persons walking on the side of the road could not turn out more quickly. The boy's mother, Mrs. William Hutton, this morning stated the boy was too lame and that Mr. Sheridan is in no way responsible. The Gazette corrects the impression of careless driving and is glad to state that the accident was but a trivial one.

DECLINES OFFER OF COLGATE UNIVERSITY

Reverend R. M. Vaughan Declines to Accept Call to Berkeley, California, Church.

Reverend R. M. Vaughan, whom it was recently announced has been tendered a professorship in systematic theology at the Colgate University, New York state, has declined to remain in the pulpit and has declined the offer from the east to accept a call to the pulpit of the Evangelical church of Berkeley, California. He will take up his work in the new field on October first. Berkeley is the home of the University of California and also of the Baptist seminary and Mr. Vaughan will doubtless devote part of his time to the theological seminary work.

THE TARIFF BILL AS REPORTED TO HOUSE

Continued from Page 1.

leather and leather goods. The free hide provision is based on the condition that on and after October 1, 1909, sole leather from the hides that are to be admitted free will pay a duty of five per cent; grain, buff and split leather 7 1/2 per cent; boots and shoes, the upper leather of which is made from such hides, 10 per cent, and harness and saddlery, 20 per cent. This schedule of rates will result in a reduction of 15 per cent on boots and shoes, 20 per cent on harness and saddlery, 15 per cent on sole leather and 12 1/2 per cent on leather for uppers, if made of the hides that are put on the free list by the provision.

Bituminous coal is reduced from 67 cents per ton to 45 cents, and there is also a reduction on gunpowder, matches and cartridges. Agricultural implements go off from 20 per cent, ad valorem to 15 per cent, and the older works of art are placed upon the free list. Petroleum, which received much attention in both houses, slips through without any duty, countervailing or otherwise, and most of its products come in under the same terms.

Comparison Hard to Make.

The principal difficulty in the way of a clearly detailed comparison between the present, so-called Dingley law and the new bill lies in the fact that in most of the more important and sharply contested provisions and schedules a radical rearrangement of classification and a shifting from specific to ad valorem duties leave few common terms for comparison.

Mr. Payne's statement comprised an analysis of the bill, showing both the increases and the decreases, but this detailed presentation was preceded by a general summary in which he undertook to show the extent of revenue increases and decreases according to schedules. According to this showing the total increases were on importations valued at \$62,512,525 and the total decreases on importations, amounting to \$4,978,122,124.

In this preliminary statement Mr. Payne said that he had made an investigation based on the census returns of 1905, showing the amount of domestic consumption of articles upon which duties have been raised and also the articles upon which duties have been lowered by the bill as finally reported from the conference committee. This had been done because comparisons have been made based upon the amount of importations, he said.

"Duties," he said, "have been lowered where they were too high under the present law, sometimes prohibitive in character, and for that reason the importations were comparatively small. On the other hand they have been raised in some instances where the tariff was insufficient for protection and the importations were very great."

Table Shows Results.

He then gave the following table, which shows the consumption value of articles on which rates of duty have been increased and decreased in all cases where the amount of production could be ascertained:

	Duty decreased.	Duty increased.
Chemicals.....	\$43,609,548	\$11,106,539
Earthenware.....	328,422,782	11,422,252
Metals.....	\$1,243,260,189	31,250,372
Lumber.....	666,870,850	30,965,833
Sugar.....	303,965,833	no change
Tobacco.....	no change	435,030,637
Agriculture prod.....	435,030,637	462,001,850
Wines and liquors.....	462,001,850	41,622,024
Cotton.....	no change	804,445
Flax, hemp, jute.....	22,171,145	no change
Wool.....	no change	1,847,569
Silk.....	1,847,569	104,742,008
Paper and pulp.....	67,623,053	101,653,593
Sundries.....	1,719,423,082	382,512,525
Totals.....	\$4,978,122,124	\$62,512,525

"Of the above increases the following are luxuries, being articles strictly of voluntary use:

Chemicals, including perfum- eries, etc.....	\$11,106,539
Wines and liquors.....	462,001,850
Silks.....	104,742,008
Totals.....	\$579,850,397

This leaves a balance of increases not on articles of luxury of \$272,662,128.

Miscellaneous Provisions.

A provision is included in the bill which levies on all articles upon which any foreign country pays a bounty or grant upon its exportation, an additional duty equal to the amount of such bounty.

It is required that all imported articles capable of being marked without impairment of their value shall be stamped with the name of the manufacturer and the country of origin.

A very elaborate provision for the administration of the customs laws was adopted by the conferees. It is practically the same as that adopted by the senate. It is intended to prevent undervaluation of articles on which there is no foreign market by which true values may be ascertained.

Provision is made for the establishment of a customs court of appeals, with headquarters in Washington. It will comprise a presiding judge and four associate judges, at salaries of \$10,000 a year. There are to be appointed to conduct government cases before this court a special assistant attorney general at \$10,000, a deputy assistant attorney general at \$7,500, and four attorneys at \$5,000 each.

The internal revenue tax on tobacco is amended, making the rates on chewing and smoking tobacco eight cents a pound. No change was made in the tax on cigars, except those weighing under three pounds per 1,000, which were increased from 64 to 75 cents per 1,000. The rates on cigars were increased to \$1.25 per 1,000. A prohibition against the use of coupons or special gift pledges is incorporated in the new law. The provision granting farmers the

free sale of leaf tobacco places a restriction on the retail dealer which requires him to record every sale amounting to two pounds or more to one person in one day. A number of other ironclad requirements are included in the redraft of this section adopted by the conference committee, by which it was intended to prevent any frauds upon the internal revenues, and at the same time give as much of a local market as possible to the tobacco grower. The grower had contended for unrestricted sale of amounts up to ten pounds.

Foreign-built yachts are subject to an excise tax of seven dollars per gross ton, which is to be collected annually on the first day of September. In lieu of the excise tax the owner of a foreign built yacht or pleasure boat may pay a duty of 35 per cent, ad valorem on his yacht. This will entitle him to American registry. The excise tax provision was adopted because of the fact that some question has been raised about the ability of the government to enforce collection of import duties.

Corporation Tax.

Every corporation, joint stock company or association organized for profit, and every insurance company is required to pay annually an excise tax of one per cent, upon its entire net income over and above \$5,000. This feature was put into the bill to raise additional revenues to apply on the treasury deficit. The section was prepared by Attorney General Wickersham, assisted by other able lawyers in the administrative circle, and great care was taken to guard against double taxation. It provides a form of publicity which will enable the government to exercise supervision over corporations. The form of returns which must be made by corporations, and other features of the corporation tax law were made public in detail during its consideration in the senate. It is estimated that from \$20,000,000 to \$30,000,000 a year will be collected under this form of federal taxation.

The secretary of the treasury is authorized to issue Panama canal bonds to the amount of \$290,569,000, which sum, together with that already expended, equals the estimated cost of the Panama canal. It is not intended that the bonds shall be issued except as needed to provide money to carry on the work of canal construction. The bonds are to be payable 50 years from the date of issue, and will bear interest at a rate not exceeding three per cent. When the bonds are sold the secretary of the treasury will restore to the working balance the \$50,000,000 paid originally for the canal property and the canal zone.

The re-enactment of the provision authorizing the issuance of treasury certificates for money borrowed to meet public expenditures, increases the amount of the authorization from \$100,000,000 to \$200,000,000. A large number of other provisions that are in force under the existing tariff law are included in the conference bill, with a few changes in phraseology in several cases.

The drawback provision of the Dingley law is incorporated in the conference bill in lieu of the drawback of the house bill which intended to permit the substitution of domestic material in the manufactured article for export to the same quantity that the imported material, upon which a drawback was obtainable, was used in the manufacture of similar articles for domestic consumption. An additional provision was adopted entitling users of domestic alcohol in the manufacture of perfumery and cosmetics to secure a drawback of internal revenue tax to the amount of alcohol used in an exported article.

Senate Ideas Accepted.

Practically all the administrative features of the bill which were adopted in the senate were accepted by the conferees. They include a new maximum and minimum feature, a corporation tax law instead of the inheritance tax adopted by the house, authorization for a bond issue to raise money to build the Panama canal, as well as numerous other features.

The maximum and minimum provision prescribes duties in accordance with the rates named in the dutiable list until March 31, 1910, when 25 per cent, ad valorem is to be added automatically as the maximum duty. The president is authorized to apply the minimum rates, however, to imports from a country which gives its best rates to the products of the United States and is made the judge as to whether a foreign country accords to the United States treatment which is reciprocal and equivalent. When he finds that this condition exists he is to issue a proclamation putting in effect the minimum rates and until the time of the proclamation the maximum rates will apply.

The president is empowered to employ such persons as may be required to secure information to assist the president in the discharge of the duties imposed upon him and information which will be useful to the officers of the government in the administration of the customs laws. The reciprocity treaty with Cuba is not affected by the maximum and minimum provision.

The president is empowered also to abrogate those reciprocity treaties which can be terminated by diplomatic action. It is made his duty to give 10 days' notice after the bill becomes a law of his intention to bring those treaties to an end. All other treaties which contain no stipulation in regard to their termination by diplomatic action shall be abrogated by a notice of six months from the president to those countries, the notice dating from April 30, 1909, on which date Secretary Knox notified foreign governments that the United States would soon ask them to enter into new tariff relations.

Yea, Verily.

Man's clothes are of man's life a thing apart; they're woman's whole existence. —Washington Herald.

INDUSTRY AND MECHANICS

TESTING HARDNESS OF METALS

Instrument Invented for Purpose of Determining Accurate and Scientific Measurements of Hardness.

An instrument called the "Scleroscope," for accurately testing the hardness of metals, and recently introduced on the market, will find an important place in the shops of those requiring such information. The device is the invention of Albert P. Shore, and according to the Iron Age it fills a long felt want. That paper, in commenting on the subject, has the following to say:

"This new instrument would seem to supply the means of effecting accurate and scientifically correct measurements of hardness, for with it an instantaneous blow is struck, and the recuperative power of the specimen is then measured by determining the extent of the rebound of the striking hammer, the elastic limit of this metal being tested having been exceeded. There is an upright glass tube back of which is a graduated scale running from 0 to 140. This tube is entirely open at the bottom. In the same figure may be seen a specimen secured in a clamp and ready to be tested. This should be put in such position that the particular spot to be tested is immediately under the lower opening in the tube. The rubber bulb seen at the top is for the purpose of sucking up the hammer, which is a small piece of steel fitting snugly but smoothly the bore of the tube. The hammer is perfectly free, having no attachment to any portions of the instrument. Upon

A Scleroscope.

releasing the upper bulb sharply, after having compressed it, the little hammer will be drawn to the top of the tube and there retained by a suitable device until it is desired to strike the blow.

"To make the test, the finger hook near the top and on the left side is first pressed down. Then by compressing the rubber bulb, seen resting on the base, and connected with the upper portion of the glass tube by a piece of small rubber tubing, the hammer will be permitted to fall. Upon striking the specimen it rebounds. The amount of this rebound, as read upon the scale, is regarded as a numerical statement of the degree of hardness. A small rod will be seen to the left of the glass tube. This affords rigidity and at the same time supplies a means of supporting a sliding holder. In the holder is secured a magnifying glass by which the rebound may be observed distinctly and accurately. However, not all operators use this glass, as a little practice is sufficient usually to enable the users to dispense with such assistance in reading the rebounds."

NEW FERRO-TITANIUM RAILS

Experiments Show That They Contain but Little Titanium and May Be Entirely Free.

A curious peculiarity of the new ferro-titanium rails, which have been made experimentally in the United States for a little more than a year, is that they may be entirely free from titanium, and at most they contain but little. In this respect the "alloy" differs from all others. The properties of nickel-steel, for instance, depend upon the presence of a material percentage of nickel, and manganese steel must have a carefully adjusted proportion of manganese. For the new metal, the steel is made in a converter and blown in the usual way, when it receives a charge of titanium alloy. This is a product of the electric furnace, and is a mixture containing 10 to 15 per cent, of titanium and five to seven per cent, of carbon, the remaining portion being iron. Each ton of steel receives a charge of about eight pounds of titanium alloy, the effect being to increase the slag removed from the metal in the ladle, while the ingots are free from blowholes. The titanium, unless in excess of what is necessary to remove the impurities, all passes off in the slag. The treatment gives special durability to rails for curves, and at the Grand Central station in New York an ordinary rail last 3.03 pounds per yard in four months, while a titanium alloy rail of the same composition was worn away only 1.01 pounds per yard in six months. The few dollars' increase per ton of Bessemer rails is expected to be much more than offset by added durability.

The Triumphant Feminine.

Woman's superiority over man is proved by the fact that she can be a heroines even to the maid who pins on her switches and adjusts her hat.

WILL TEACH HOME ECONOMICS IN UNIVERSITY.
Miss Abby L. Marlatt.

Madison Wis.—When Lathrop hall, the new women's building at the University of Wisconsin, is opened for the first time this fall, at the beginning of the college year, there will be given to the woman students of the state university opportunity to study the domestic science in some dozen courses offered for the first time in the laboratories and lecture rooms reserved for the department of home economics in the new building, and under a new staff of instructors.

Miss Abby L. Marlatt of the Technical school of Providence, R. I., has been chosen head of the newly reorganized department and will assume her duties at Wisconsin at the opening of the college year, September 23, making her headquarters in the office which with commodious lecture rooms and laboratories for research and experiment, have been set aside for the home economics department on the fourth floor of the west wing of Lathrop hall.

Miss Marlatt is a woman of exceptional ability, both as a teacher of the domestic science and as a lecturer on a wide range of subjects connected with home economics problem. After taking her degree of master of science at the Kansas Agricultural college, and pursuing graduate studies abroad, she occupied various positions of importance in her chosen field and has been well known as a lecturer at the Lake Placid conference on home economics.

The courses which are offered in the curriculum prepared by Miss Marlatt for the coming year include, besides the four-year course for those who specialize in the subject, others designed to give a general knowledge of home economics a teachers' course for those who wish to become domestic science instructors, and graduate courses including special research work.

One Can Repulse or Attract.

If you would remove evil, do good. Be a growler and you will drive men and women away from you. Be sympathetic and you will attract the world.

A SALE OF Skirts and Waists

Specials in Both Lines
At \$3.95

A great offering of high class Separate Skirts, also Silk and Net Waists

THE SKIRTS AT \$3.95

Just in time for your summer needs comes this special sale of the season's skirts. The line consists of high grade Panamas, serges and various novelty suitings. The lowest price skirt we carry in a regular way is \$5.75 and from that price up we show many styles. There are about a hundred skirts in the sale in such colors as black, navy, brown, green, grey, etc., and when you realize that the regular prices of these skirts were from \$5.75 to \$10.50, etc., and when you appreciate the importance of this special. There is a complete range of sizes such as 38 to 40 lengths for small women, the lines of regular sizes 39 to 44 as well as the extra size skirts for women requiring large bands. The entire line on sale at a choice... \$3.95

The Waists at \$3.95

Many are familiar with the high character of the waists shown in this department, but to those who may not be, will say that everything that's new is usually shown here first. This sale will include messaline, and taffeta silk waists, white and ecru net waists, also colored net waists in such shades as blue, green, brown, taupe, wisteria, etc. These waists are all late models and represent the pick from several New York manufacturers with a regular price range from \$5 to \$12.50. The greater part of them are individual styles and if you are fortunate enough to find the size you wear you are sure of a waist that will please you. All on sale at a choice for one price... \$3.95

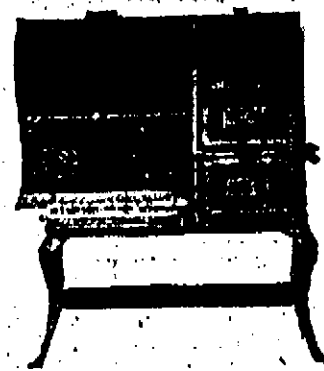

Don't overlook the sale of Wash Suits at half—the sale of Trimmed and Untrimmed Millinery at half—the sale of Silk Gowns at \$10.00 and \$15.00.

GARMENT STORE

As a Money Saver As a Trouble Saver As a Time Saver

No Modern Appliance Equals the CABINET GAS RANGE

It Combines All the Virtues of All
Other Styles.

It has two ovens and a warming closet, all heated with the same burner, thus saving money. All are at a convenient height so there is no stooping.

It contains five burners: one double burner, three single burners and a simmering burner.

It stands clear of the floor so that scrubbing and sweeping underneath are made easy.

When intelligently used, gas is the cheapest kitchen fuel. It is well to remember this fact when thinking over the many other attractive features of a Gas Range.

IT SAVES fuel, as your flame can be turned off and on, high or low, at will.

IT SAVES trouble as it does away with dirt, ashes, soot, smoke, kindling.

IT SAVES time, no waiting for the necessary heat from the slow combustion of coal or wood. You have an abundance of heat by regulating the flame, and you have it instantly. It is the most dependable fuel.

IT IS COOL, CLEAN, ECONOMICAL, QUICK, ACCURATE, CONVENIENT.

The range illustrated costs \$30.00 delivered and connected.
Terms 1-3 Down, Balance in Six Monthly Payments.
Other Types of Gas Ranges, \$13.50 and Up.

All Types of Gas Ranges May Be Seen at Our Office

EARTHQUAKE KILLS SCORES

MEXICO SHAKEN BY MOST VIOLENT TREMOR IN 25 YEARS.

SEVERAL CITIES DEVASTATED

Six Dead in Capital and Many Injured—Residents of American Colony Escape Death—People in Panic, Pray in Streets.

Mexico City, July 31.—It is feared today that the number of dead in the earthquake which visited Central Mexico yesterday will be more than one hundred. Wires are down and until telegraphic communication is restored the story of the disaster will not be fully known.

One thousand square miles was covered by the quake and in this wide area the people are frantic with fear of another disaster. The shocks lasted nearly all day. The towns of Acapulco, Chihuahua, Chilpancingo and Iguala were partly destroyed.

Reports from the towns of Vera Cruz, Oaxaca, Tlaxcala, Silacoyan, Durango, Morelos and Puebla indicate more or less property damage, but no loss of life.

At Iguala the shocks continued all day, each new disturbance leveling a building. All wire communication was cut off at eight o'clock last night, at which time the people were frantic with fear.

Damaged Seven Years Ago. Acapulco, noted for its great landlocked harbor, is the chief port of call for steamers plying between San Francisco and South American ports. Its population is about 5,000. Chilpancingo has a population of 8,500. It is about 75 miles from Acapulco. Chilpancingo is about 20 miles from Chilpancingo and has a population of 6,000. The towns were badly wrecked by an earthquake in January, 1902.

According to the observatory records, the first shock was felt at 4:15 in the morning. It was severe, causing the bells of the many cathedrals of the city to toll, breaking crockery and in some instances leveling walls. The inhabitants of the city had hardly recovered from the fright occasioned by the phenomena when a second and more severe shock caused an outpouring of nearly all of the inhabitants to the streets and open plazas. Tall buildings away and in some instances crumbled, the pavement opened in places and in the poorer sections of the city houses collapsed.

Six Dead in Capital. So far as can be learned from police records, six persons lost their lives in Mexico City and its environs as a result of the second shock, including three women and a child. Four others are expected to die.

The large American colony escaped unscathed. There were some slight confusions reported among them from falling plaster, but no serious injuries were reported.

The property damage in this city is slight. Some of the cathedral walls were cracked and scores of adobe walls were sent to the ground, but the main business part of the capital showed absolutely no signs of the severe shaking which it had been given. Indians Pray in Streets. The wailing and praying of the Indians in the public squares added to the weirdness of the scene and painted an unforgettable picture on the minds of the half-dazed, shivering hordes of frightened men, women and children who stood out in the drizzling rain waiting for the coming of daylight. When the sun shone the people returned to their homes, having suddenly recovered from the fright to sit down to breakfast. They had hardly begun this meal when a third shock sent them again scurrying to the streets.

CZAR VISITS FALLIERES.

Extreme Precautions Taken to Protect Russian Monarch Who is French President's Guest.

Cherbourg, July 31.—Emperor Nicholas and the Russian imperial family arrived today to visit President Fallieres. Elaborate precautions were taken to safeguard the life of the emperor during his stay in French waters. The garrison was reinforced and within the city practically martial law prevailed. Hundreds of Russian police officials are here. More than 50 torpedo boat destroyers keep every vessel in the harbor under scrutiny, while no craft of any class is allowed to approach that part of the harbor in which the French and Russian squadrons are anchored.

The French battleship Verite, on which the presidential party has its headquarters, has been attached to land by a cable line and the other warships will maintain a constant wireless communication with the Eiffel tower.

Snows Ten Minutes in Omaha. Omaha, Neb., July 31.—The unusual spectacle of snow falling in July occurred in this city last night during an electrical storm which followed an extremely hot day. The flakes fell intermittently for nearly ten minutes.

Impossible. One cannot talk constantly without saying foolish things.

WRIGHTS WIN THE \$30,000

ORVILLE WINS GOVERNMENT PRIZE, SETTING NEW AERIAL SPEED MARK.

FLIES 42 MILES AN HOUR

Practicability of Aeroplanes in Time of Peace or War is Established by Dayton Inventor in Last of Darling Flights.

Washington, July 31.—Orville Wright, in his sensational flight across country with Lieut. Paulin in his aeroplane last evening, surpassed the government's requirements and won the \$30,000 appropriated by congress. Incidentally, Wright broke all speed records over a measured course and established beyond dispute the practicability of the aeroplane in time of peace and in time of war.

Exceeds Forty-Two Miles an Hour. Wright's speed was more than 42 miles an hour. He made the ten-minute flight in 14 minutes and 42 seconds, including the more than twenty seconds required for the turn beyond the line at Shuter Hill, the southern end of the course. He attained a height in crossing the valley of Four Mile Run of nearly 500 feet, and the average altitude of his practically level course was about 200 feet.

President Taft arrived upon the parade ground at Fort Myer just in time to see the aeroplane land and to participate in the wild demonstration which welcomed the triumphant aviator. He sent Col. Trent, commandant of the artillery at Fort Myer, to bear his congratulations to the victor.

Cheered by Thousands. When Orville turned on full speed and the machine rose into the air, hordes of people were waving, automobile horns were tooting, and some overwrought spectators even wept. "They're off!" a thousand voices shouted as one.

Like a giant bird, circling the sky until it marks its prey, and then darting straight for its objective, this man-bird swept unswerving down its course. The revolving propellers encouraged an illusion of swift-winged bird flight. Unwavering, it kept a course straight to the south, and it seemed to be rising ever higher.

Disappears Behind Hill. Suddenly the speck was lost to view, and as the seconds passed a silence grew upon the crowd, a silence that spoke of deep concern. Then the speck came in sight again, over the distant hill. A cry swept over the watching crowd.

"There it is!" Everybody said, and the sigh of relief was plainly audible. Onward the machine came, growing with the seconds, and seemingly swerved from its course by a westerly breeze. It grew and grew, until almost every detail of it was visible. Soon the aerial navigators were home again over the drill ground, flying very low. Orville steered straight across the field and at a height of about twenty feet swung around again to the southward and landed easily far down the field. The task was done in triumph.

Today the official board determined the speed made. The Wrights will receive \$30,000, including a bonus of \$5,000, for their aeroplane.

WEDS FOUR IN PAJAMAS.

Pastor Barefooted as He Ties Two Nuptial Knots.

New York, July 31.—With his feet bare and wearing only white pajamas and a long raincoat, Rev. George Whitcomb, pastor of the German Point Methodist Episcopal church, performed two marriages in his parsonage. Twice he was awakened and twice he left his bed to bless expectant young brides.

It was after midnight when the first couple appeared. William A. Jackson of Bayonet, and Miss Jennie Berry of Huguenot, S. I., joined hands and were married while their two friends—the witnesses—giggled with merriment.

Along toward two a. m., when the pastor was making up sleep, William Worcester, of New York, and Miss Wehrmann of Fair Haven arrived. The bride didn't like the pastor's garb but had to stand it.

VENGEANCE SEEKER HURTS 40.

Shuts Off Ventilation in Kansas Mine and Three May Die.

Pittsburg, Kan., July 31.—Forty miners were overcome by gases in the Central Coal and Coke Company's mine No. 31 here. All but 15 were quickly placed out of danger. Twelve were seriously and three fatally hurt. Nearly all are foreigners.

An inspection by the state mine inspector indicates that some one had deliberately checked the ventilation, evidently for revenge. Fatally hurt: George Zimmerman, Jim Shoop, M. Porter.

Grain Firm Sued for \$200,000.

Bloomington, Ill., July 31.—L. J. Lamson and L. L. Cates, members of the Chicago board of trade, and known to the grain trade as the firm of Lamson Bros. & Co., have been made defendants in two suits asking \$200,000 damages, filed in the Chicago county circuit court by Stephen L. Ruffy and his wife, Cora L. Ruffy, both of that county. No declaration was filed, but it is understood that the suits result from losses sustained in the grain market.

His Strong Card.

In the game of love, when hearts are trumps, a fellow is expected to lead a diamond.

COWARDICE IN CONGRESS.

Leslie W. Shaw Says People Have Frightened Lawmakers.

Chautauque, July 31.—"The people have made cowards of their congressmen," said Leslie W. Shaw, the former secretary of the treasury, before a large audience in the auditorium. Among other things Mr. Shaw said:

"Never before has there been such an exhibition of cowardice in the halls of congress. The people have made cowards of their congressmen. And every man who has dared to follow his own convictions and vote according to those convictions will be retched by the people when his name again comes before them for re-election."

"If Roosevelt, Taft and Bryan were to die to-morrow the nominee of one party would be William Randolph Hearst and the nominee of the other party would be Robert M. La Follette. And the people of the country would elect Hearst."

"Uncle Joe Cannon is not a coward—in this respect he is exceptional in this congress. Sherman is a brave man."

Compulsory Insurance Adopted. Clinton, Ia., July 31.—The supreme officers of the United Danish Society of America, in

MANY YOUNG WOMEN ARE
AIMING AT BUSINESS CAREER

Scholarships in Gazette's Contest Have Large Number of Zealous

Seekers—The Janesville Business College Ranks High—Three

Scholarships to be Given.

Wonderful Interest Being Taken by
the Contestants in Big Event—All
Desirous to Secure Prizes.

CONTESTANTS—All sub-

scriptions to be delivered by

mail will not be started from

this office until the Monday fol-

lowing on which the subscription

is given to us and the subscrip-

tion will be dated from that

time.

A great number of the letters which

have been received by the contest

manager contain inquiries about the

business scholarship, showing that a

large proportion of the young women

who have entered the race are inter-

ested in that feature. It is a worthy

ambition for any young lady to try and

earn, by her own efforts, a scholarship,

and she should receive the support

from her friends who she deserves.

Business Education.

From a business college point of

view a "business education" means a

course of study and training that fits

young men and women for commo-

dial pursuits. In this age of sharp

competition there is little chance for

the young person who faces the world

without the knowledge and skill that

comes from special training. The busi-

ness college furnishes the prepara-

tory training for the bookkeeper, the

clerk and office assistant in all lines

of business. It qualifies its graduates

to enter at once upon a profitable em-

ployment. But it does far more than

this. It gives an educational founda-

tion upon which future success in any

line of business may be based.

There is an unlimited number of

young women in this country who are

ambitious to earn their own living

and hold profitable positions, but who

are without the necessary education

and special skill.

There is an unlimited number of

desirable and profitable positions in

this country to be filled by young

women of good character, practical edu-

cation and sound training.

The well equipped and conducted

business college is, without a doubt,

the place where a successful business

training should be sought. Janesville

or Beloit Business colleges are pre-

pared to meet every reasonable re-

quirement of those who seek commo-

dial education.

At all of these colleges (the

choice being optional with each win-

ner) is where the winners of the schol-

arship will take their combined

course of study. These colleges rank

high with the best in the state, are

elegantly lighted and thoroughly

equipped. A capable corps of teachers

is employed and the three winners of

the scholarship will be well satisfied

with the instruction they will receive.

Standing of Contestants.

The standing of the contestants as

appears in this issue is according to

the count of yesterday morning at 9

o'clock, and shows many changes in

the relative standings in all the dis-

tricts. New names are being added

to the list daily and are showing

wonderful strength to start with.

No one is losing hope, and the dif-

ference of a few thousand votes is

nothing, as it means but a couple of

years' subscriptions. There are five

weeks remaining in which to secure

subscriptions and close the class

which now separates those in other

positions from first place.

Subscriptions are not hard to se-

cure if you go about it right, and

the contest department is ready and

willing to give all possible assistance.

Open Evenings.

For the benefit of those who cannot

call during business hours this office

and contest department will be open

every evening until 8 o'clock.

STANDINGS OF CONTESTANTS
